

Since Life's Vision moved into its new head office, so many wonderful opportunities are coming our way!

As you read about all we are doing, please support Life's Vision with a financial gift so we can continue our efforts to restore the value of life in our culture.

Sincerely,

Susan Penner
Executive Director

Life's Vision is working to create a pro-life narrative that equips individuals, communities, and businesses to support the value of life in the day-to-day. We want to be pro-life in tangible and meaningful ways.

THE NUMBERS WE WANT TO CHANGE:

100,000 babies are aborted in Canada each year

Canadians dying by MAiD is approaching 10,000 per year

Please make a gift to Life's Vision today!

Cheque

E-Transfer

Send an e-Transfer to:

etransfer@lifesvision.ca

Online

Give online at:

www.lifesvision.ca

Automatic monthly donations are very appreciated!

What we are doing to support a culture of life:

- Developing life-affirming resources
- Hosting webinars and forums to discuss pro-life apologetics
- Having mentors walk alongside pregnant women and single moms
- Providing support for moms grieving the loss of a pregnancy or baby
- Facilitating caregiver support groups
- Equipping volunteers to reach out to those at the end-of-life
- Advocating for expanded palliative care and hospice

Specific Initiatives:

Angel Baby

Pregnancy & Infant Loss

So many women lose a baby through miscarriage, still birth, and abortion, yet there is very little support for these women. Angel Baby seeks to support women by validating their grief and recognizing the life of the baby they lost. Angel Baby is set to launch this summer!

Care Together

End of Life Support

Care Together will equip and support people to be caregivers to those at the end of life. Whether family members, friends, or volunteers, Care Together will show how to make the end-of-life experience meaningful. Care Together begins this fall.

Operation Girl

Equality Begins in the Womb

Girls continue to face discrimination in the womb. According to the UN, over 200 million girls are statistically missing due to sex selection. Life's Vision is raising awareness of Bill C-233, the bill to ban sex selective abortion in Canada.

Please make a donation to Life's Vision and help restore the value of life in our culture!
