

Life Culture

Greetings from Life Culture!

Life Culture seeks to promote a culture of life from the beginning of life to natural death. Our hope is that Canada will become a country where all human life is sacred, where every unborn child has the opportunity to live, and where patients receive palliative and end of life care until the time of natural death.

A member of your congregation has courageously taken the steps to indicate that they are willing to bridge the gap between Life Culture's life-affirming mission and your church community.

A **Life Culture Ambassador's** responsibilities can range from sharing pro-life events & resources to the congregation (with the church leadership's discretion); coordinating and/or facilitating studies, programs, and movie screenings; to hosting life-affirming events at your church.

By signing this document, you are agreeing that the member of your church is in good standing to bring the good news of life to the church by taking on the role as a **Life Culture Ambassador**.

Should you have any questions or concerns about your member taking on this role, please let us know at your convenience (contact@lifeculture.ca).

Sincerely yours,

Life Culture
